

What is Denplan?

Denplan is a dental payment plan that gives you a way of budgeting for quality regular dental care and preventive care with additional supplementary Insurances. Dentists have to comply with Denplan's rigorous quality control inspections to be able to offer Denplan contracts

Denplan Excel accreditation

At Wall Heath Dental Practice we have been members of Denplan Excel for more than 15 years. This is an advanced accreditation programme helping support Clinical Governance and professional regulation. We are regularly inspected to check that we are practicing in line with current good practice recommendations and complying with current dental regulation. This demonstrates that we are interested in our patient's opinions and involve them in the decisions about their care. We also want to motivate our patients to maintain and improve their oral health over time.
