Implants	Up to 5%

Payment terms

Our normal procedure for all patients is to request a deposit after examination (when an estimate of the cost of your treatment will be provided). Further payments will be expected, as treatment proceeds, with your agreement. The final balance will be due on completion of treatment when the actual total can be assessed accurately. Inevitably, treatments do not always follow the original plan and so the final cost may differ from the original estimate. If changes need to be made, then you will be informed and we will discuss any changes with you.

We accept cash, debit and credit cards but not cheques or American Express.

Private Fees 2023
